*The annual interest rate is calculated by averaging the interest rate for market yield on U.S. Treasury Securities at One Year Constant Maturity, quoted on investment basis, between January 1 and December 31 of the year listed. The interest rates used in this calculation are included in pages 3 to 68 of this exhibit, and were obtained from the Federal Reserve website at https://www.federalreserve.gov/datadownload/Choose.aspx?rel=H15.

^{**}The amount of interest per year is calculated by multiplying the annual interest rate by the principal amount from the previous year, and adding the interest calculation to the principal amount from the previous year.

^{***}The annual interest rate for 2011 is calculated by averaging the interest rates from January 24, 2011, the first business day after the DRC judgment was issued to December 31, 2011. The amount of interest for 2011 is calculated by multiplying the annual interest rate by the number of days from January 21, 2011, the date of the DRC judgment, to December 31, 2011.
